

Centrul de Medicină Legală și-a extins domeniul de acreditare

The Center for Legal Medicine has expanded its accreditation field in accordance with the requirements of the standard SM EN ISO/IEC 17025: 2018, for the tests indicated in annex no. 2 of 24.02.2025 at the Certificate Certificate Lî - 136. This achievement demonstrates the functionality of the laboratories within the CML at the level of the highest international standards of competence and quality, guaranteeing its beneficiaries. The success achieved was possible with the valuable support provided by UNDP, which has supported us throughout the entire process of development and implementation of the best international practices in the field of judicial expertise.
