

La 16.01.2023 Secția Toxicologie medico-legală din cadrul CML a fost acreditată conform standardului ISO/IEC 17025

On 16.01.2023 the medical-legal toxicology section of the CML was accredited according to the ISO/IEC 17025 standard. This demonstrates the operation of the laboratory at the level of international standards, professional competence, technical endowment and accuracy of the results obtained. It offers the laboratory a strong competitive advantage and increases the beneficiaries' confidence for the services offered. During the UNDP accreditation process it provided a considerable support for the elaboration of the documented information, the validation of the applied methods and itself the accreditation process.
